THE UNITED STATES DEPARTMENT OF AGRICULTURE,
in Miscellaneous Publication No. 73 (February, 1930) entitled, "The
Agricultural Outlook for 1930" says:

"Prevailing wholesale prices for Red Clover seed, at the lowest level since 1921, are lower than last year by about \$11.50 per 100 lbs. (35 per ct.) and are lower than the average at a corresponding date for the past five years (1924-1928) by about \$10.50 (33 per cent.). *-*-* farmers who are required to buy seed, may find it profitable to buy two years' requirements at prevailing low prices.

"Alsike Clover seed *-*-* prevailing prices are the lowest since 1924 and average about \$13.50 (39 per cent) lower than a year ago and \$6 (22 per cent) below the 5-year average."
